Advantages of South Pasadena

South Pasadena's biggest industry is homes, for which it is widely known. Ideally situated, the city has developed as one of the finest residential communities in Southern California. It is noted for its good schools, fine churches, and its cultured and refined atmosphere.

South Pasadena has attractive climatic and physical conditions. The city lies just below the crest of the Raymond dike, which deflects the drainage from the immense foothill watershed, through natural channels on each side of the city.

Situated some distance from the mountains, the city escapes the reflected heat, while an ocean breeze sweeps inland every afternoon during the summer, making the days not unpleasantly warm and the nights cool and delightful.

The sunshine of the winter days is broken by frequent rains, that freshen the lawns, turn the surrounding hills verdant, and convert the gardens into great bouquets of flowering shrubs, trees and roses.

In this charming natural environment, twenty minutes by auto from downtown Los Angeles, and less than thirty minutes by fast electric train, fourteen thousand people have their homes in a well-governed city under the council-manager plan.

The city is clean, well paved, and has all public utilities. Taxes are relatively low. It has three well-developed small parks centrally located. Beautiful Arroyo Seco Park in the western part of the city, has an attractive grove with accommodations for picnickers, a regulation ballfield and a soft ball diamond.

A commodious public library, competently staffed, offers a library service to the people of the community equaled by few cities of the size of South Pasadena.

Two million dollars represents the investment in school property in South Pasadena which includes five elementary schools, with kindergarten departments, junior high school, and senior high school The junior and senior high schools serve also the City of San Marino. The schools of South Pasadena offer the children of the community unexcelled educational opportunities.

Occidental College, California Institute of Technology, the University of California at Los Angeles, the University of Southern California and other colleges, situated nearby, make it possible for the student to get a college education and still live at home.

All the leading religious denominations are represented in South Pasadena by beautiful church edifices.

The clubs and fraternal organizations offer splendid social advantages. The Woman's Club of South Pasadena, organized in three divisions, seniors, juniors, and business and professional women, has a membership of 600. The Oneonta Club, a unique fellowship club, has 300 members. There is an active Kiwanis Club.

The American Legion Post, which has its own substantial home, the cornerstone of which was laid by the late Marshal Foch, carries on an active program in the interests of the veterans and general community welfare. The South Pasadena Masonic Lodge, which has a membership of 600, has its own beautiful temple. Other fraternities are well represented in the city.

Excellent stores and markets are conveniently located to the residential districts.
